Benefit for Working Boys' Home Distinguished by Fervor for the Nation.

Patriotism was the keynote of the brilliant ball given last evening at Rauscher's for the benefit of the Working Boys' Home.

The large ballroom was full of flags. The boxes were outlined and separated with draperies of red, white, and blue bunting. The celling was festooned with huge flags, solidly, from one end to the other, and cross, while the walls of both ball rooms were covered with signal flags An attractive smoking room was fit ted up on each side of the hall, and gayly frocked cigarette girls kept busy supplying the demand other bevy of debutantes sold little rosettes of red, white, and blue rib

In a picturesque tent in the fur thermost corner of the small ball room, Mrs. James Hamilton Lewis, arrayed as a veritable gypsy queen with her face veiled with coral tulle told fortunes with as much skill and mysticism as any gypsy. She en-riched profits very considerably.

Guests Are Sketched. Miss Siborn, the Belgian artist, made crayon sketches of the guests. The band was stationed at the loors which connected the two rooms, and the dancers filled both. Supper was served at midnight at small tables, after which the dancing continued until the early morning hours.

## THIS WONDERFUL NEW PRO

Won't shrink woolens! Won't turn silks yellow! Won't injure even chiffons!

Pure soap in flakes-nothing else like it has ever been made. Not a soap powder, not chipped soap, not a cake of soap, but fine, transparent flakes of pure soap, ready for use. These flakes melt the moment they are thrown into hot water. They dissolve so completely that not the slightest trace of soap is left in the garment to yellow it.

The hardest test of a soap

The hardest test of any soap product is in washing woolens and flannels, and in the choice of your soap product, lies the secret of complete success in their laundering The formula for Lux produces a soap product which will not ahrink woolens, and which leaves them soft and fluffy, just as they were when new. You may find it difficult to believe that Lux really will not shrink woolens or flannels, but order one package and try it. Think what it means to you to have at last found something which will

wash any woolen! How you can keep your silk blouse as white as when new

It is the combined action of alkali and hot water on silk which makes it acquire a yellow color which cannot be washed out.

With Lux and lukewarm water, you can wash silk fabrics dozens of times and they will not turn yellow. Lux contains no free alkali, and lathers wonderfuily, even in lukewarm water! Lux won't harm anything that pure water alone will not injure.

For fine laundering, soap should never be rubbed directly on the article

For fine laundering, never rub soap directly on a fine article. This coarsens and tends to discolor the fabric. Lux cleanses wonderfully without rubbing. The thin, transparent flakes dissolve instantly, and contain more real cleansing value than you would believe possible.

Order a package now, and test it! That is the way to settle for all time the product you will use for all your fine laundering. Lever Bros., Cambridge, Mass.
